

PIONEER 1947 KUKDONG

KUKDONG ENGINEERING & CONSTRUCTION CO., LTD.

KUKDONG

8th floor, 163 Mapodaero, Mapo-gu, Seoul, Korea 04130
[Seoul Credit Guarantee Foundation Building]
TEL: 82-2-2280-6114 www.kukdong.co.kr

KUKDONG

Kukdong E&C’s CI is designed to highlight the uniqueness of Kukdong through its simple yet distinctive usage of visual style. The English transcript of ‘Kukdong’ enhances the readability, and the application of eco-friendly motif design to the initial ‘K’ expresses the company’s status as the global leader that pioneers the construction culture of 21st century. Blue symbolizes Kukdong E&C’s cutting edge technology along with its credibility, whereas green illustrates the flourishing life of human and nature.

Starclass is Kukdong’s humane residential brand that augments the value of ‘beauty’ into residential spaces with the motto ‘Heartwarming apartment that enriches lives-Making life more beautiful’ Starclass is a combination of the illuminating ‘star’ of the night sky and the elegant ‘class’ of people who dears for a truly beautiful life, reflecting the heartwarming residential space that is filled with both forefront technology and emotional satisfaction. The brand’s symbol mark is a blend of the ‘star’ that shines the beautiful life and the curves that reminds one of the beautiful melodies from opera house. The color of the mark is blue, a color that represents hope and stability, allowing it to signify the lyrical and luxurious atmosphere of the humane space.

PIONEERING
THE NEW LAND
OF TECHNOLOGY

With the idea that progressive technology advances the world, With the hope of enjoying our future life today, With the belief that we build not just buildings but people’s dream, Kukdong will advance a step ahead towards achieving the innovative construction that captures the world’s attention,

CONNECTING VALUES TO VALUES

PIONEER SINCE 1947
KUKDONG

A time when there was not one no proper airport.

Decades before KTX was built.

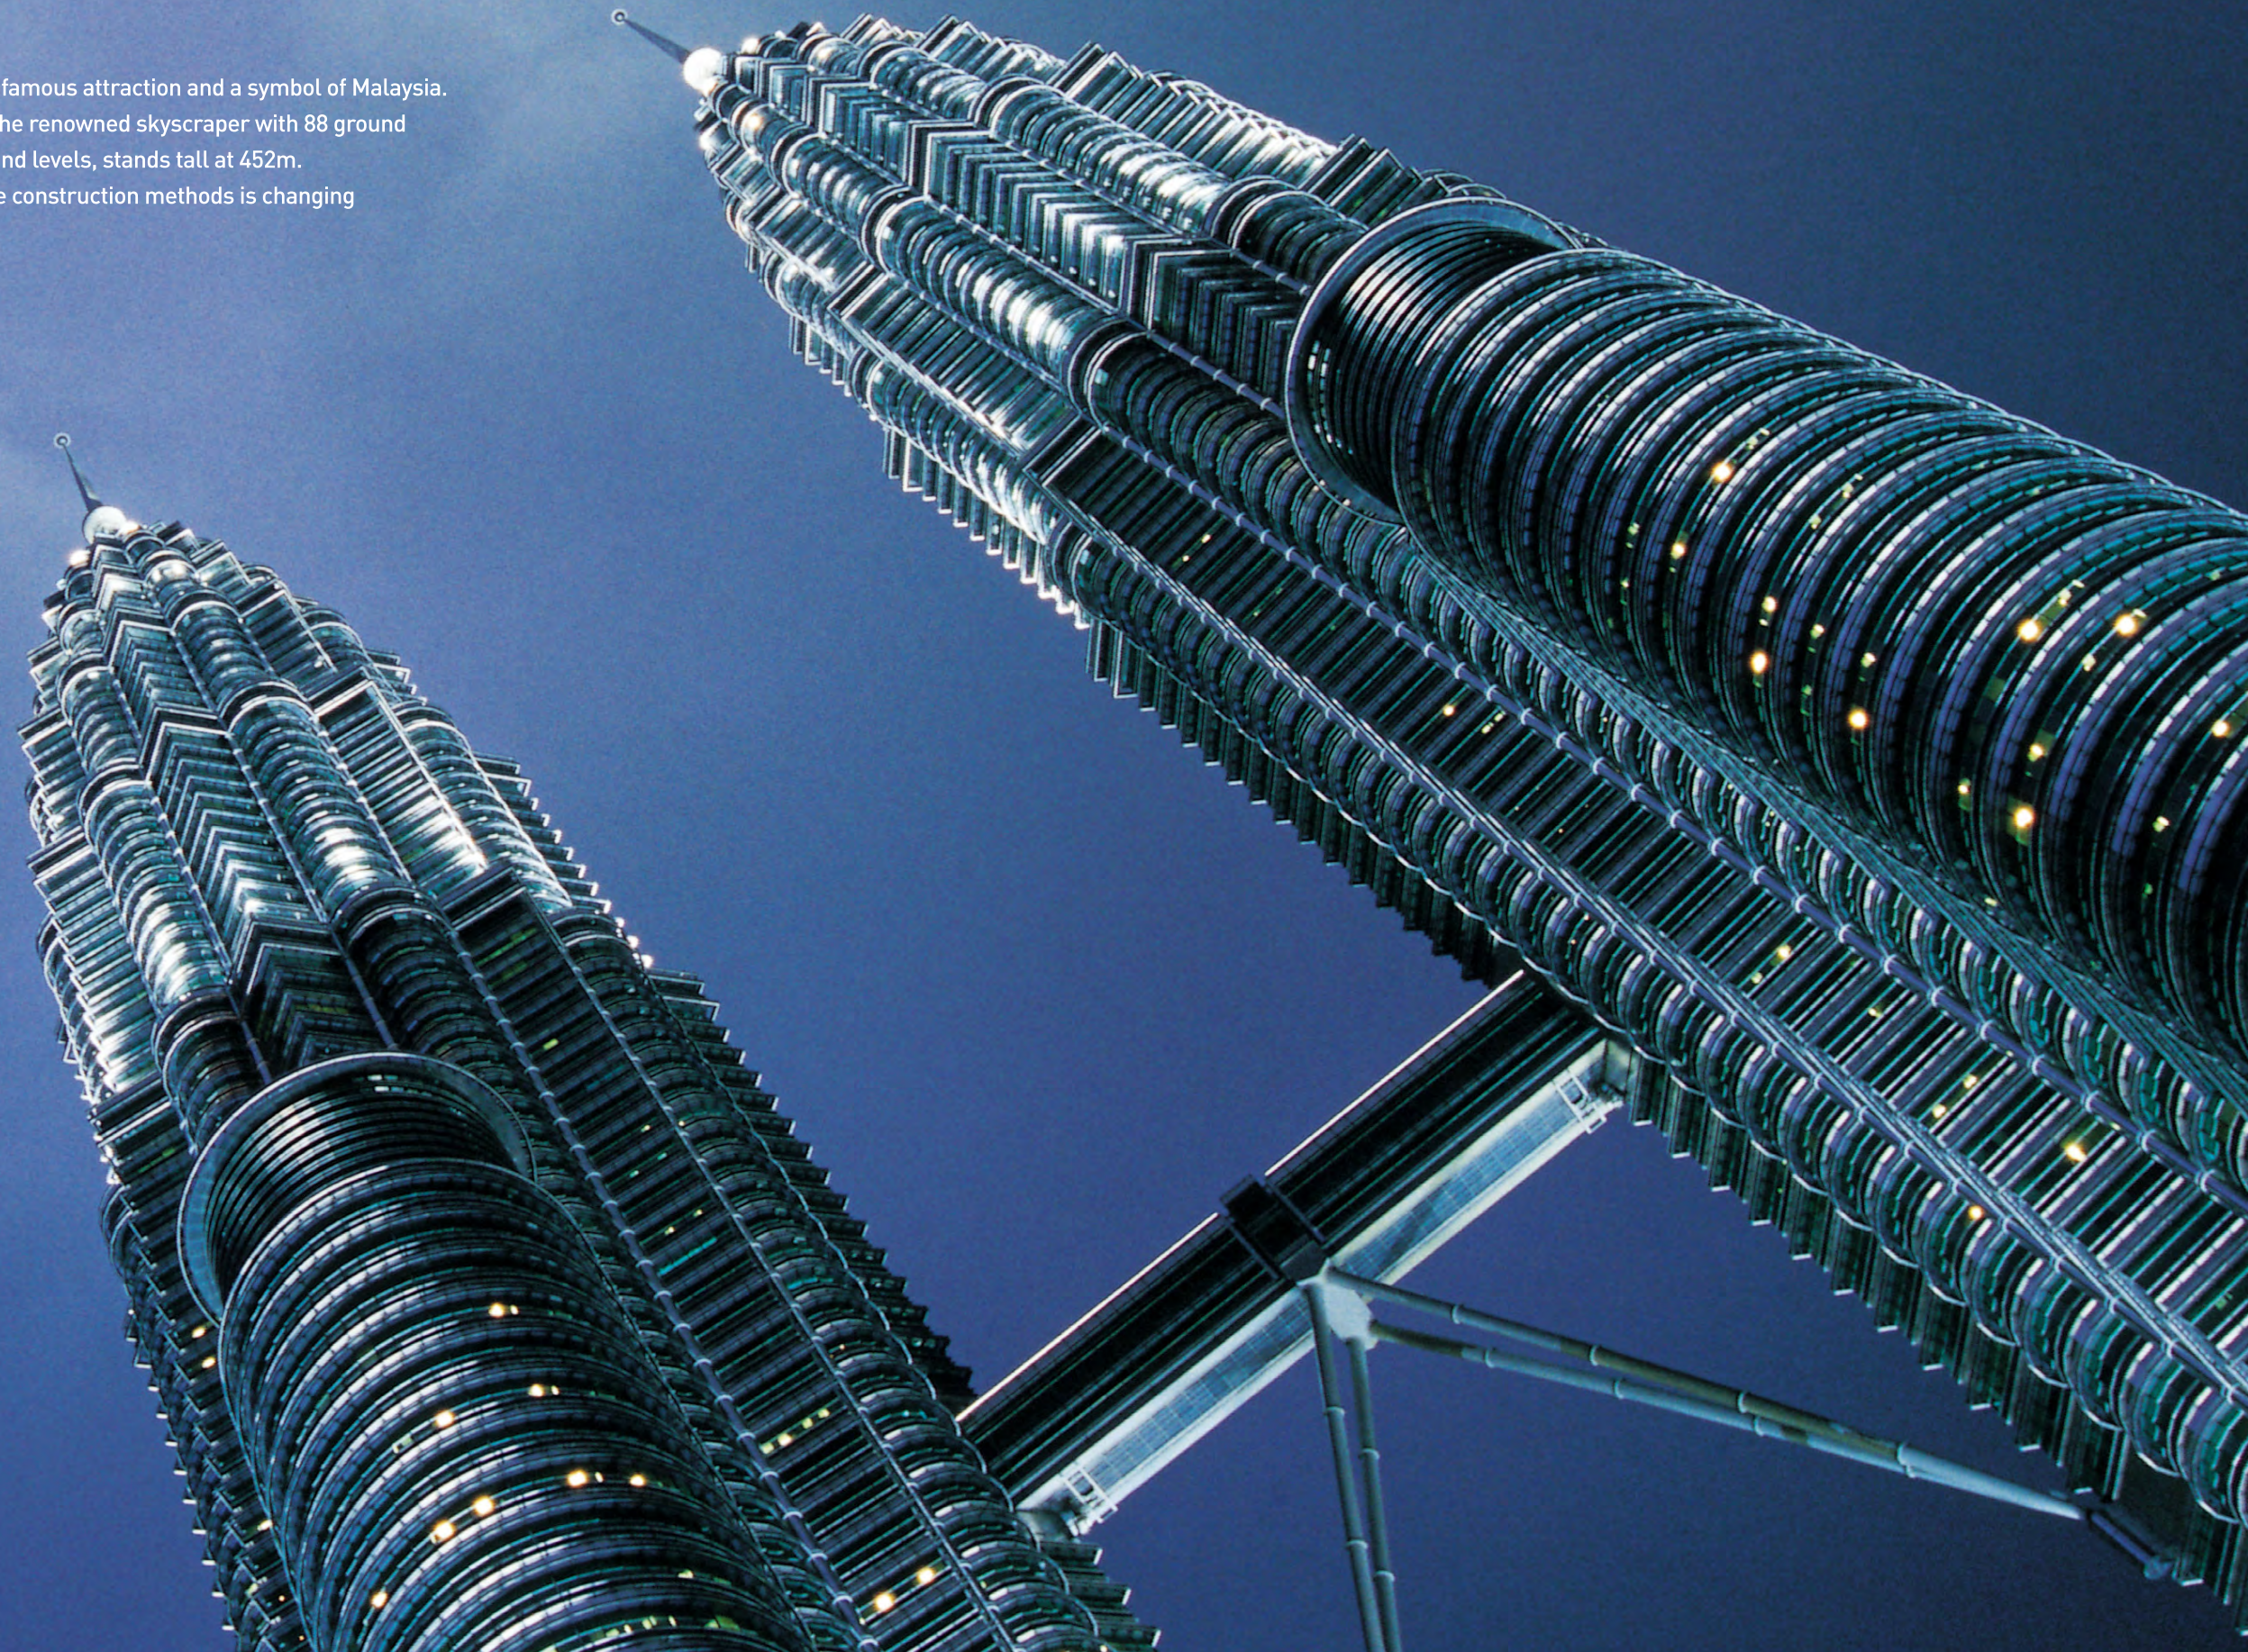

The 416km long, 22,4m wide Gyeongbu Expressway, main artery of Korea,
has allowed the entire nation to become a one-day life zone.

Kukdong E&C is elevating the value of Korea even at this very moment.

SURPASSING THE IMAGINATION OF MANKIND

PIONEER SINCE 1947
KUKDONG

It has become a world-famous attraction and a symbol of Malaysia.
Petronas Twin Tower, the renowned skyscraper with 88 ground
levels and 6 underground levels, stands tall at 452m.
Kukdong's cutting edge construction methods is changing
the world's skyline.

DESIGNING CULTURE INTO ARCHITECTURE

PIONEER SINCE 1947
KUKDONG

Korea is proud and the world is envious.
The world-class Daegu Stadium that incorporates the soft
curves of Korean traditional housing roof to the stadium.
Kukdong E&C displays its state of the art
technology to the world.

With priceless know-hows and exceptional technology as our engine, we are working to become a century-old construction prestige of Korea.

We now face new challenges in building 100-year-prestige that will represent Korea in the construction industry. Fueled by innovations and zeal, Kukdong Engineering and Construction Co., Ltd has grown over 70 years since its establishment in 1947.

Kukdong has led the Korean construction industry based on its sturdy technology and abundant construction experiences in a wide range such as civil engineering, building, housing, plant, environment and energy etc. Furthermore, it has also made significant contributions to national economic development by constructing landmarks such as Gyeongbu Expressway, also known as the main artery across Korea, COEX, a symbol of the Korean economy, and Banghwa Bridge, the first non-governmental investment project in Korea to connect Seoul with Incheon International Airport.

Kukdong's remarkable achievements are not confined to Korea. Starting from Taiwan in 1971, the company led the Middle East boom, a legend in overseas construction industry, and gained recognition for its excellent construction capabilities in various countries such as Vietnam, Cambodia, Malaysia, and Kazakhstan. The Petronas Twin Tower in Kuala Lumpur, Malaysia, exceptionally displayed the technological advancement of Korea to the world.

Kukdong now steps forward for one of top 10 construction companies of 2030, which is within 10 years. We promise to be a global corporation valued not only in Korea but also on global stages, by extending across the diversity of the sectors we work in to attain the growth engine, selecting and focusing on the most suitable projects which will lead to profit, securing competitiveness in terms of absolute costs best profitability, and offering a holistic solution through creative working environment that respects different views, to be sustainable and socially responsible through ethical management.

Kukdong will solidify the foundation of the prestigious name by reinforcing our competitiveness edge. We will focus not only on the civil engineering to build dams and ports that require advanced technologies and but also on housing fields to lead new trends and value creation through constant investment in R&D for low carbon green growth projects in fields such as energy, environment and plants. We will continue to devote all our endeavors to become the best partner not only in Korea, but also in the world through our endless effort for innovation, challenge and action.

We kindly ask for your constant support and encouragement throughout our journey to becoming Korea's prestige in the global market.

Thank you.

President Jung Dong Moon

BUSINESS AREAS

**By pioneering unprecedented technology,
Kukdong leads the future of technology.**

From civil engineering that leads economic boosts, construction that renovates the city with advanced technology and designs, housings that enhances people's lives to plants, electricity, telecommunications, and environmental facilities, Kukdong E&C works endlessly to move advance the technology in all aspects of Korean construction.

For the past 70 years, we wrote the history of construction.
For the coming 70 years,
we will write the history with technology.

When nobody would stand at the front, Kukdong leads the way.
With this head start, Kukdong will prepare for tomorrow faster than anyone.

HISTORY

- 1947. -Established Daeyoung Construction
- 1953. -Changed Corporation name to Kukdong Engineering & Construction (Capital 200,000 Won / Location : 107 Shinmoon-ro 2, Jongro-gu, Seoul)
- 1954. -New construction of Nandaemoon Market
- 1956. -Commenced new construction of Seoul Citizen's Hall
- 1965. -New construction of Kukdong Hotel in Haewoondae, Pusan
- 1967. -New construction of Daeyeongak Hotel
- 1968. -Acquired Civil engineering·Construction business license (No. 225), Road paving business license [No. 15]
- 1969. -Construction of Seoul-Pusan highway
- 1970. -Construction of Asan seawall and tidal gate
- 1971. -Construction of Seoul subway line 1
-First overseas project with Taiwan highway construction
- 1973. -Ranked at 4 for 1973 subcontract limit by construction company (announced by the Ministry of Construction)
- 1976. -Commenced Middle east project with the new construction of Duba - Albad of Saudi Arabia
-Placed order of 108-million-dollar construction work for Jubail Industrial Harbor (3rd biggest order for overseas project in Korea at that time)
- 1976. -Listed stock
- 1978. -Completed Kukdong Bldg. construction. Assigned as the house constructor [No. 4] by the Ministry of Construction
- 1979. -Construction of Riyadh Diplomatic Complex substructure in Saudi Arabia
-Received overseas construction export \$500 million tower
- 1981. -New construction of Dhahran hospital in Saudi Arabia
-New construction of Saudi Arabia Central Bank HQ
- 1982. -Received overseas construction export \$1 billion tower
- 1983. -Commenced the Redevelopment project in Guro 1 district which was Korea's first house redevelopment work
-Acquired overseas comprehensive construction license [No 17]
- 1984. -Entered Indonesia and placed order for P-J road repair work
-Placed order for new construction of Kukdong APT. in Gwangjang dong
-Placed order for construction of zone 1 phase 3 of Metropolitan waterworks
- 1985. -Placed order for new construction of office building in COEX
- 1989. -Construction work for zone 7 of Jungang Expressway
- 1993. -Opened affiliated R&D center
-Placed order of new construction for KLCC Twin Tower in Malaysia [World's tallest building at that time]

- 1995. -Placed order for construction of Peitong, Indonesia
-Acquired ISO 9001 Certificate, Industrial paving (celebrating 30th anniversary of first overseas project)
- 1997. -Placed order for construction of hydroelectric power plant in Ham Thuan dam, Vietnam
-Completed the construction of KLCC Twin Tower in Malaysia (92 story 452m)
-Acquired ISO 140001 Certificate
- 2005. -Launched the STARCLASS house brand
- 2007. -New construction technology certified by the Ministry of Construction & Transportation
- 2009. -Acquired OHSAS 18001 Certificate
-Certified as Excellent Eco-Friendly Building (STARCLASS in Myeongji zone)
- 2010. -Opened Ocean Suites Jeju Hotel
-Accumulated order of 1 trillion won
- 2011. -Korea Electric Power Industry Code (KEPIC) Certification
-Signed voluntary green gas reduction agreement between Kukdong Construction . Chungnam Provincial Office
- 2012. -Placed order of bridge · road construction in zone 2 of Noi Bai . Nhat Tan, Vietnam
- 2014. -Assigned as preliminary operator of green remodeling business (Ministry of Land, Infrastructure and Transport)
-Completed the construction of Incheon International St. Mary's Hospital
-Placed order for establishment of clinical practice building in Kyungpook National University
-Completed the construction works for Kukdong STARCLASS 1st and 2nd in Sejong city, Kukdong STARCLASS
-Namsan, Kukdong STARCLASS Central in Naepo new city (achievement of 40 thousand households built by Kukdong)
- 2015. -Placed order for road work in zone A2-1 Ben Luc . Long Thanh in Vietnam
-Placed order for expansion work in Seoul-Pusan High-speed railway Daejun station
-Placed order for zone 13 of B-8BL APT construction in Homaesil, Suwon
-Placed order for roadbed work in zone 1 of Yeongcheon . Shinkyungjoo double track railway in Jung Ang Line
-Completed the construction of No. 65 Ulsan . Pohang national highway
-Awarded by Minister of Land, Infrastructure and Transport (for construction work of Ulsan-Pohang highway)
- 2016. -Merged and Acquired to Sewon Construction
- 2017. -70th anniversary, was held
-Announced group vision for 3 construction companies (Namkwang Engineering, Kukdong Engineering & Construction, Kumkwang Engineering & Construction)

For the past 70 years, we have become pride of Korea.
For the coming 70 years,
we will become the leader of the world.

We have received countless gratitude from Korea and the world during our run.
Now we run towards the world fueled by the support and encouragement we received.

ACHIEVEMENTS

- 1970. -Stone Tower Industrial medal (for construction of Gyeongbu Expressway)
- 1971. -Presidential award (for construction of Seoul-Semal Expressway)
- 1974. -Iron Tower Industrial medal (for construction of seawalls in Asan harbor and Namyang harbor)
- 1975. -The 14th International Federation of Asian and Western Pacific Contractors' Association (IFAWPCA)
-Gold prize in civil engineering category (for construction of Asan harbor seawall)
- 1985. -Placed order for new construction of office building in COEX
-Iron Tower Industrial medal (for construction of Seoul subway)
- 1986. -Industrial paving (for expansion of Honam Expressway)
- 1987. -1987 Korean Institute of Architects Award (for Dankook University Toegye Memorial Library and Chunan campus student hall)
- 1993. -Bronze medal at the 5th International Construction Award
- 1999. -Iron Tower Industrial medal (for construction of Metropolitan water supply facility)
-Iron Tower Industrial medal (for construction of Asan Industrial water facility)
- 2000. -Iron Tower Industrial medal (for construction of JungAng Expressway)
- 2001. -Presidential award at the 10th Construction Award (for construction of Daegu Worldcup Stadium)
-Iron Tower Industrial medal (for construction of Milyang Multi-Purpose dam)
- 2002. -Industrial paving (construction of Metropolitan water supply facility)
- 2004. -Presidential award
- 2005. -Grand prize at the 5th fn Housing Power Brand Award
- 2006. -2006 Construction Cooperation Promotion Award
-Iron Tower Industrial medal (for construction of national road No. 43)
- 2007. -Certification for new construction technology by the Ministry of Construction & Transportation
- 2008. -Industrial medal from the Cambodian government
-2008 Korean Architecture Award (Seoul National University R&D Center)
-Minister prize at 2008 Construction Cooperation Promotion Award assigned by the minister of Land, Transport and Maritime Affairs
-Grand prize at the 3rd Green Construction Award
- 2009. -Certified of Excellent Eco-Friendly building (STARCLASS Myeongji district)
-Grand prize at 2009 Green House Culture Award

- 2010. -2010 Green Construction Award (Excellence Award in major company management category)
-Presidential citation (construction of phase 2 of Seoul-Pusan high-speed rail)
-2010 second half Residential Culture Grand prize (Grand prize in good company category)
